INSTALLATION

Step 1

Remove speaker from box.

Step 2

Locate euroblock in accessory bag and connect signal wire. For daisy chaining, use "LINK" output to run to next speaker.

Step 3

Set tap switch to proper setting. Tap switch is preset to highest 100V position.

Step 4 - SURFACE MOUNT

Remove rubber feet. Attach speaker mounting bracket to cabinet choosing vertical or horizontal mounting holes with provided screws, **DO NOT OVER-TIGHTEN**.

Step 4.1 - Horizontal

Use these hole to attach speaker mounting brackets to cabinet for Horizontal mount.

Step 4.1 - Vertical

Use these hole to attach speaker mounting brackets to cabinet for vertical mount.

Step 5

Securely attach wall bracket with wall bracket lock tab facing up.

Step 6

Insert euroblock into rear of subwoofer.

Step 7

Hang subwoofer by inserting tabs of speaker brackets into wall bracket slots.

Step 8

Insert bracket locking screw at top of bracket.

Step 9

Done.

FLOOR OR SHELF MOUNT

Follow steps 1-3. Set subwoofer on floor or shelf.

FLY MOUNT

Insert 4 optional forged eyebolts in M6 inserts on side of speaker cabinet. Use appropriate cables to hang speaker. Follow steps 1-3.
