

# Standalone Android Media Player

## Overview

#### Free Scheduling Software

Use our free scheduling software that allows you to display different content at certain times of the day. You can also add scrolling text and set image duration and transition effects using this software.

P

### Integrated Android Media Player

The integrated Android Media Player allows for super fast updates. If required you can also run third party Digital Signage software via the Android PC board.

#### **Network Upgrade**

The Media Player can be upgraded to become a network Media Player that unlocks a host of new features including online updates and multiple media zones.

### Environmentally Friendly Power Timer

Allows for a reduced power usage in those hours that the displays are not required. Set daily or weekly On/Off times for your displays.

#### **Plug and Play**

Uppl TF Card

**Commercial Grade** 

Designed for use in commercial applications this media player can run 24/7. There are no external buttons or controls to avoid tampering.

Plug and Play is the easiest and most simple way to upload content to the screen. Simply load images and videos onto a USB stick, insert into the Media Player. Wait for your content to copy over and then remove. Your images and videos will now play in a continuous loop.
